Spain Summer Camp is a specially designed program directed at providing an exchange of cultural experiences, and customs. The goal is to provide students with a stimulating environment, where students of different nationalities and cultural backgrounds come together to share their cultures and interests.

The dynamic, diverse, group setting fosters an environment of mutual support and camaraderie. Students learn together and from each other as they explore new and exciting challenges. All activities, excursions, and foreign language instruction are aimed at enriching students by exposing them to an exciting combination of art, culture, sports, and leisure.
